SUMMARY

Highly motivated Computer Science student specializing in Cybersecurity, Ethical Hacking, and Digital Forensics. I possess proven expertise in Vulnerability Assessment, Penetration Testing, and Malware Analysis. As a technical lead, I have engineered projects involving SIEM deployment with the ELK Stack and developed Machine Learning models. My dedication to the field is demonstrated by my Top 2% ranking on TryHackMe (Rank 37,060) and achieving 355th place in the Industrial-Intrusion CTF.

TECHNICAL SKILLS

Languages: C++, Bash Scripting, C, Python, Java, JavaScript, SQL, HTML/CSS
Security Tools: BurpSuite, Wireshark, Nmap, Metasploit, Nessus, Kali, Hashcat, Splunk, Ghidra
Cloud & Tech: AWS (EC2, Lambda, S3), Blockchain, Node.js, React.js, Linux, Docker, ELK Stack
Specialized: Reverse Engineering, Malware Analysis, Computer Networks, OWASP, OSI Model

PROJECTS

Distributed Network IDS with ELK Stack

Cybersecurity Project

Python, Kibana, Logstash, Kali

April 2026 - May 2026

Engineered a dispersed SIEM-like pipeline using Elasticsearch, Logstash, and Kibana to aggregate security telemetry. Optimized data ingestion using Grok filters and successfully routed telemetry from a Windows Host to a Kali VM using NAT Port Forwarding. Managed high-volume security datasets to improve behavioral alerting for suspicious network activity.

Carbon-Emission-Prediction

Machine Learning Project

Python, Scikit-learn

Developed a predictive model using Python and Scikit-learn to forecast CO2 emissions based on industrial activity. Performed feature engineering and data normalization, achieving high predictive accuracy for sustainability reporting. Visualized critical emission drivers to provide actionable insights for environmental impact analysis.

EXPERIENCE

Cyber Security and Ethical Hacking Intern

Tamizhan Skills

Jun 2025 – Jul 2025

Remote

Applied practical ethical hacking techniques to simulate real-world attacks and recommend remediation strategies.

Green Skills with AI Technologies Intern

Edunet Foundation

Jun 2025 – Jul 2025

Remote

Evaluated AI-driven solutions for optimizing environmental data analysis and reporting.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering (CGPA: 8.84/10)

Bhopal, India

2023 – ongoing

St. Xavier's Convent School

Senior Secondary (XII), ICSE (78%)

Lucknow, India

2022

St. Xavier's Senior Secondary School

High School (X), CBSE (91.4%)

Gonda, India

2020

CERTIFICATIONS

Blockchain and its Applications (NPTEL, IIT Kharagpur)
The Bits and Bytes of Computer Networking (Coursera)
Networking Basics & Cyber Threat Management (CISCO)
AWS Cloud Practitioner & AWS Skill Builder
Cybersecurity Job Simulation (Mastercard & Deloitte)
