SUMMARY

A motivated Computer Science student specializing in Cybersecurity and Ethical Hacking. I possess proven expertise in Vulnerability Assessment, Penetration Testing, and Malware Analysis. As a technical lead, I have engineered projects involving SIEM deployment with the ELK Stack and developed Machine Learning models.

TECHNICAL SKILLS

Languages: C++, Bash Scripting, C, C#, Python, Java, JavaScript, SQL, HTML/CSS

Security Tools: BurpSuite, Wireshark, Nmap, Metasploit, Nessus, Kali, Hashcat, Splunk, Ghidra

Cloud & Tech: AWS (EC2, Lambda, S3), Blockchain, Node.js, React.js, Linux, Docker, ELK Stack

Specialized: Reverse Engineering, Malware Analysis, Computer Networks, OWASP, OSI Model

PROJECTS

Containerized HIDS & SIEM Pipeline | Python, Docker, ELK stack, Scapy, Nmap | *Cybersecurity Project* **May 2026**

- Architected a containerized SIEM using Docker Compose to orchestrate decoupled ELK microservices, optimizing host CPU/RAM overhead by migrating from a heavy Kali VM environment.
- Developed a Python HIDS sensor via Scapy to capture live network traffic, stream JSON alerts over TCP, and validate behavioral rules using simulated Nmap reconnaissance attacks.

Carbon-Emission-Prediction | Python, Scikit-learn | *ML Project*

Jun-Jul 2025

- Developed a predictive model using Python and Scikit-learn to forecast CO2 emissions based on industrial activity.
- Performed feature engineering and data normalization, achieving high predictive accuracy for sustainability reporting.
- Visualized critical emission drivers to provide actionable insights for environmental impact analysis.

EXPERIENCE

Cyber Security and Ethical Hacking Intern | Tamizhan Skills

Jun – Jul 2025 Remote

- Applied practical ethical hacking techniques to simulate real-world attacks and recommend remediation strategies.

Green Skills with AI Technologies Intern | Edunet Foundation

Jun – Jul 2025 Remote

- Evaluated AI-driven solutions for optimizing environmental data analysis and reporting.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering (CGPA: 8.84/10)

Bhopal, India

2023 – ongoing

St. Xavier's Convent School

Senior Secondary (XII), ICSE (78%)

Lucknow, India

2022

St. Xavier's Senior Secondary School

High School (X), CBSE (91.4%)

Gonda, India

2020

CERTIFICATIONS

- Blockchain and its Applications (NPTEL, IIT Kharagpur)
- The Bits and Bytes of Computer Networking (Coursera)
- Networking Basics & Cyber Threat Management (CISCO)
- AWS Cloud Practitioner & AWS Skill Builder
- Cybersecurity Job Simulation (Mastercard & Deloitte)

ACHIEVEMENTS

- Solved 200+ LeetCode problems and actively competed in Codeforces contests with a 407 contest rating.
- Selected for the DSCI Cyber For Her Hackathon and the APCSIP-2026 program for a Cyber Cell internship.
- Ranked in the top 2% globally on TryHackMe with a 177-day learning streak in penetration testing and digital forensics.
- Placed 355th out of 5,947 global competitors in the TryHackMe Industrial-Intrusion CTF.
- Secured 7th rank nationally in the Shell n'Zen CTF, solving complex web security and reverse engineering challenges.
