SUMMARY

Analytical and results-driven Computer Science Undergraduate with strong expertise in data-driven problem solving, project execution, and risk assessment. Proven ability to translate complex technical data into actionable insights and strategic recommendations for stakeholders. Demonstrated success in fast-paced competitive environments, cross-functional internships, and leadership roles.

SKILLS

Strategy & Management: Project Coordination, Process Optimization, Risk Assessment & Mitigation, Requirements Gathering

Analytical & Technical: Data Analysis & Normalization, Predictive Modeling, SQL, Python, System Architecture

Communication & Collaboration: Technical Documentation, Executive Reporting, Stakeholder Presentation, Team Leadership

EXPERIENCE

Cybersecurity & Risk Analyst Intern | *Tamizhan Skills*

- Evaluated web application workflows to identify operational vulnerabilities and security logic flaws, minimizing risk exposure across systems.
- Authored detailed remediation reports translating complex risk assessments into actionable business strategies for key stakeholders.
- Streamlined evaluation protocols to improve turnaround times for web application security assessments.

Data & Sustainability Project Intern | *Edunet Foundation*

- Optimized data processing workflows for large-scale environmental datasets, improving predictive model accuracy for greenhouse gas metrics.
- Collaborated across mentor-led teams to implement feature engineering and data normalization pipelines, streamlining analytics delivery.
- Presented data-driven findings and actionable recommendations to project leadership to support strategic decision-making.

PROJECTS

Automated Risk Assessment & Reporting Platform | *Project Lead*

- Led end-to-end development of an automated risk evaluation platform that streamlined data collection and target assessment.
- Designed relational database architecture to maintain cross-phase tracking and eliminate data duplication across system targets.
- Built an automated executive reporting engine that compiled complex findings into structured, high-level summary reports for non-technical stakeholders.

Distributed Operations Monitoring Pipeline | *Lead Developer*

- Architected a containerized microservices monitoring pipeline, optimizing system efficiency and reducing host overhead by replacing virtual machine environments.
- Engineered real-time alert streaming to ensure rapid incident detection and operational visibility across networks.
- Conducted systematic stress-testing against simulated operational disruptions to ensure platform resiliency and threshold reliability.

Predictive Data & Anomaly Detection Framework | *Lead Researcher*

- Designed an end-to-end analytical pipeline to transform unstructured system traffic into structured behavioral metrics.
- Trained unsupervised machine learning models to identify zero-day operational anomalies and multi-stage risk patterns.

EDUCATION

Bachelor of Technology in Computer Science

Vellore Institute of Technology (VIT) – Bhopal, India (CGPA: 8.84 / 10.0)

2023 – 2027

LEADERSHIP

- **Patriotic Youth Ambassador (Veterans India - VPRF):** Serve as a disciplined civilian volunteer focused on social services, civic duty, and national crisis assistance preparedness. *(Jun 2025 – Present)*
- **NSS Environmental Volunteer (NSS Unit, VIT Bhopal):** Collaborated on campus sustainability initiatives and environmental drives, including college tree plantation projects. *(Jul 2025)*
- **Event & Cultural Operations Volunteer (Gujarati Club, VIT Bhopal):** Coordinated event logistics, scheduling, and crowd management for major campus events including Winter Fest '24 and Garba Night '24. *(Oct 2024 – Dec 2024)*
- **Competitive Problem Solving:** Solved 300+ algorithm and analytical logic challenges on LeetCode; achieved Top 2% global ranking on TryHackMe and 7th Rank Nationally in Shell n'Zen CTF.

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services
- Networking Basics & Cyber Threat Management – CISCO
- Blockchain & Applications – IIT Kharagpur (NPTEL)
- National & Global Awards: 355th out of 5,947 competitors in Industrial-Intrusion CTF.
